**PETITION**

SC PUBLIC SERVICE  
COMMISSION

2013 APR -1 PM 2:06

RECEIVED

MCImetro Access Transmission Services LLC, d/b/a Verizon Access Transmission Services (Verizon Access), pursuant to S.C. Code Ann. §58-9-30 (Supp. 2012) and in accordance with Vol. 26, S.C. Code Ann. Regs. 103-825 (2010 Supp), hereby submits its Petition requesting that the Commission review the Pooling Administrator's denial of Verizon Access' application for a single Thousand Block of telephone numbers (Thousand Block) in the Columbia rate center, overturn that decision, and order that a Thousand Block be assigned to Verizon Access. In support of its Petition, Verizon Access would respectfully show, and request relief from, the Commission as follows:

1. Verizon Access is a competitive local exchange carrier that provides local exchange service and exchange access service in South Carolina pursuant to a certificate issued by this Commission. *See* Order No. 98-457, Docket No. 98-261-C.

2136

2. Verizon Access' customers include large businesses and government agencies that use direct inward dialing (DID) arrangements to obtain telephone service for their employees at one or more locations.

3. A large business customer that uses a DID arrangement has selected Verizon Access as its service provider and requested that Verizon Access provide service using a block of 80 consecutive numbers in the 803 NPA in the Columbia rate center. Using consecutive numbers facilitates the installation and management of DID arrangements. The customer has stated that it will face a severe financial impact if its request is not granted. A confidential copy of the customer's letter explaining the circumstances is attached as Confidential Exhibit 1.

4. Verizon Access has been a responsible steward of its numbering resources, using more than 90% of the numbers that have been assigned to it. Because Verizon Access does not have a block of 80 consecutive numbers in its inventory, it applied on March 22, 2013 to the Pooling Administrator, NeuStar, for a Thousand Block in the Columbia rate center.<sup>1</sup> Verizon Access' application is attached as Exhibit 2.

5. NeuStar denied Verizon Access' request on the same day Verizon Access submitted its application because Verizon Access did not meet both of the FCC criteria that NeuStar applies. Verizon Access met the number utilization criterion with 90% utilization in the Columbia rate center, which significantly exceeds the FCC's 75% threshold. Verizon Access did not meet the months-to-exhaust criterion, however, projecting that its number supply in the Columbia rate center would not be exhausted for 13.3 months, more than the six-month FCC benchmark. NeuStar's denial is attached as Exhibit 3.

---

<sup>1</sup> The application was filed in the name of Verizon Access' predecessor, Intermedia Communications.

6. The FCC has delegated authority to the Commission to address NeuStar's denial of a request for numbering resources, stating that "[w]e agree . . . that a safety valve mechanism should be established, and we delegate authority to state commissions to hear claims that a safety valve should be applied when the . . . Pooling Administrator denies a specific request for numbering resources."<sup>2</sup> Moreover, the FCC has determined that "a carrier should be able to get additional numbering resources when there is a verifiable need due to the carrier's inability to satisfy a specific customer request." Specifically, states "may grant requests for customers seeking contiguous blocks of numbers."<sup>3</sup> Based on this authority, the Commission has issued previous orders addressing denials by NeuStar.<sup>4</sup>

7. Verizon Access' request for a Thousand Block to meet its customer's request for a block of contiguous numbers fits squarely within the framework established by the FCC for "safety valve" requests that the Commission is authorized to grant. Verizon Access respectfully requests that the Commission direct NeuStar to assign a Thousand Block for the Columbia rate center so that it can satisfy its customer's request.

**WHEREFORE**, having fully set forth its Petition, Verizon Access respectfully requests that the Commission (1) review NeuStar's decision to deny Verizon Access' request for additional numbering resources, (2) overturn that decision, (3) direct NeuStar to assign Verizon Access a Thousand Block in the Columbia rate center, and (4) grant Verizon Access such other and further relief as may be just and proper.
